PATIENT FAMILY ADVISORY COUNCIL

VISION

Attain a positive and nurturing experience for all patient and families.

MISSION

To support the voice of patients, families and the community to promote continued patient-centered care through listening and validating patient experiences and providing recommendations for quality improvement.

OVERVIEW

PFAC is an advisory group focused on matters important to patients and families. The Council's goal is to enhance patient-centered care and improve the overall patient experience at the ANHH and with FHQTC Health Services. Clients, patients, families and staff will work together to achieve these goals.

BE PART OF OUR PATIENT AND FAMILY ADVISORY COUNCIL!

All Nations Healing Hospital (ANHH) and File Hills Qu'Appelle Tribal Council (FHQTC) Health Services are forming a Patient and Family Advisory Council (PFAC). Individuals (clients, patients and family members) who have received care through ANHH or FHQTC Health Services are encouraged to consider this volunteer opportunity.

WE'RE LOOKING FOR VOLUNTEERS!

Interested in joining PFAC? Below are what we'll need from you:

- Are clients, patients or family member currently or previously receiving care from ANHH and/or FHQTC Health Services
- Have experience on a committee, through work or volunteering (preferred)
- Are able to share your healthcare experience within a group
- Are able to see beyond your personal experience and think broadly about services at ANHH and FHQTC Health Services
- Have regular access to internet and email (preferred)

TIME COMMITMENT

PFAC will meet 10 times per year between the months of September and June. Honorariums will be provided for meetings.

INTERESTED?
