WHAT WE DO

Miko-Mahikan Red Wolf promotes an integrative and cultural approach to address the prevalence of HIV/HCV through prevention, treatment and screening, and also the treatment of opioid use disorder. The Yellow Thunderbird House serves to transition clients and address homelessness.

SCOPE OF WORK

Comprehensive services focus on improving all areas of wellness, and directed by Traditional Knowledge Keepers. Based on person-directed care, which includes meeting people where they are in their journey and supporting them towards their goals.

MIKO-MAHIKAN RED WOLF

OVERVIEW

Miko-Mahikan Red Wolf provides comprehensive services that focus on improving all areas of wellness and is directed by Traditional Knowledge Keepers. The program is based on person-directed care, which includes meeting people where they are at in their journey and supporting them to work toward their goals.

The program promotes an integrative and cultural approach to address the prevalence of HIV/HCV. This includes the screening and treatment of HIV/HCV and also the treatment of opioid use disorder. It has been recognized that individuals accessing services may have other medical needs and experience socio-economic challenges that are quite impactful to their well-being. To address these complexities, the program utilizes education, case coordination, and outreach. The program offers a safe environment that is free of judgement.

PROGRAM GOALS

- To improve the health of our community by enhancing services for HIV and HCV
- To support access to person-directed care
